Closing In

Nasum

Don't want to tell you lies, don't want to be false
Still I have to make you sad and break down all your doorsStagnated - ignorant
Future is closing inYour lives as you know them are coming to an end
It's time for different values, it's time for you to changeStagnated - ignorant
Future is closing inWe've lived with all you hatred for far too many years
Now we will break down all your barriers and teach you some respect
