

Closing In

[Nasum](#)

Don't want to tell you lies, don't want to be false
Still I have to make you sad and break down all your doors Stagnated - ignorant
Future is closing in Your lives as you know them are coming to an end
It's time for different values, it's time for you to change Stagnated - ignorant
Future is closing in We've lived with all your hatred for far too many years
Now we will break down all your barriers and teach you some respect
