

Man Upon the Hill

Stars and Rabbit

Hey man upon the hill, up here...
I used to write you
You loved the way I watch the sun
Through my, fingerWe spent sometimes to the day we met.Can I fall into your constellation...
ah... ah... ah... aa... eyeWe drove in the wind...
Opened the windowWaved to nothing...Just to keep us awake
We drove under the heavy rain
Soaking wet yes
We laughed at it yet
And tell me more of your constellation arm...
And we danced in the room
Grew our heart a bloom
I stopped right there
You've found a new home
And I should be happy...
Ayayaya...
Uhhh...
I should be happy...
