

# Blink

## Infected Mushroom

Advisory - the following lyrics contain explicit language:

Dont smoke dont drink  
all i did was think  
fucking life life hard times  
trying to become such a drama be loved  
trying to amuse myself beats and waves will take me to my grave  
and when ill go there  
i know that i will be alone  
cus' i been spotted bloated  
many many times before ease and pleased the least for my shive  
i will be flying above the hate and the love  
and if you see me honey  
you had better blink your eyes strange how night blow in to one  
run with me and have some fun  
drup some wine to blow up mind  
misses the way to inspire the time travels comes eleven fields  
i show you mine if you show me yours walking out of this circle  
step by step im learning alone  
that i can conquer my demons  
just need to remember my home there is no need to be frightened  
we here are already are dead  
get us on ending vibration  
danger lots only in my head come break through with me  
such wonders terrified the soul  
its real no need to question  
knowledge infiltrate the whole lightning strikes in the darkest places  
more im learning powers  
threaten we have to make choices  
lizards try to tell us with one strange how night blow in to one  
run with me and have some fun  
drup some wine to blow up mind  
misses the way to inspire the time travels comes eleven fields  
i show you mine if you show me yours strange how night blow in to one

run with me and have some fun  
drup some wine to blow up mind  
misses the way to inspire the timetravels comes eleven fields  
i show you mine if you show me yoursdont smoke dont drink  
all i did was think  
fucking life life hard times  
trying to become such a drama be loved  
trying to amuse myselfits outrage we are tachmachine  
i go there and when i go there  
i know that i will be alon  
cus' i been spotted blooted  
meanly menay times beforeease and pleased the least for my shive  
i will be flying above the hate and the love  
and if you see me honey  
you had better blink your eyes
