Star

Stir

Pretty lady, she's so hot
Wish that she was by my side
All those feelings just don't fade
Love the color of her hair, she's something
This pretty lady's always on my mindWell, how much far and how much time?
Where's my lady friend tonight?
She's something
This pretty lady's always on my mindNow, if she won't mind I'd like to say
She is cool in every way
And I like her by my sideWhere we go, we don't ask your name
And we'll try to treat you just the same
Like we did before, this is not the end, my friend
'Coz if you wanna be a star, you'll comeback againPretty lady dancing slow
The one I'd like to get to know
She don't love me I can tell
I wish she did 'coz I would tell her somethin'
This pretty lady's always on my mindNow, if she won't mind I'd like to say
She is cool in every way
And I like her by my sideAnd now where we go, we don't ask your name
And we'll try to teach you just the same
Like we did before, this is not the end, my friend
'Coz if you wanna be a star, you'll comeback againWe go, we don't ask your name
But we'll try to teach you just the same
Like we did before, this is not the end, my friend
'Coz if you wanna be a star, you'll comeback againStone bridge suicide
Lose a life to keep my pride
Walk through, hold my hand
Sister's done all she canBeen far, now we're blind
I can't recall what's on my mind
Sleep some, please don't die
I figured we'd go out tonight
Now I figured we'd go out tonight
