

# Child Come Away

**Kim Wilde**

Child come away - it's the girl with the deputy walking by.

Just go and play

no I won't give you reasons

so don't ask why.

I read the story 'bout a week ago They found her on the beach that night.

They said the light had gone out of her eyes

And no-one thinks she'll ever be right. She was so full of her life Happy with the people she knew

but now no-one can tell.

Child come away - it's the girl with the deputy walking by. . .

'cos all they found were some marks in the sand A message saying "she is mine".

Nobody touched her as she got in the car

And nobody dares to anytime. She was so full of her life
