

Sand On the Beach

Cheap Fakes

As sure as sand on the beach, parties in the street
As sure as shoes on your feet, you know we're gonna meet
At the club or the bar, I'll take you in my car
We can go near or far and do what makes you feel alright

We're cruising in the sun heading down to the beach
I found a couple of coins, they were stashed under my seat
save 'em up for later for the jukebox machine
ready or not Cheap Fakes on the scene
build it up and then burn it down
getting cold shivers from the bass heavy sound
getting around in some hand me downs
sparking it up, we're gonna tear up this town

sand on the beach, parties in the street
As sure as shoes on your feet, you know we're gonna meet
At the club or the bar, I'll take you in my car
We can go near or far and do what makes you feel alright

Get off your chair right here and get in the groove
the way the musics talking is making you move
you move your body slowly, getting in time
It's just the way that I told you, the pleasures all mine, it's ours
Now that you're here will you save the day?
you hold yourself in a different way
but it's not hard for me, we don't need to be making no choice
the soothing tones, yes, the sound of your voice

sand on the beach, parties in the street
As sure as shoes on your feet, you know we're gonna meet
At the club or the bar, I'll take you in my car
We can go near or far and do what makes you feel alright
