Gotta get it, gotta get it
Plastic classic
Hey yo, hey yo Can't forget my plastic get down
Ghost electric telephone bones
Blowin' like horns about to shout
Nasty distortion down on the slow jam All my friends got Dixie soul
Rockin' the plastic, takin' the low road
Rough as a river, cowboy, now boy
Biscuit chicken hittin' the wicked Sandwich soul, a buffalo
Make it back for the finger pointin' down
Ooh, got to get it, plastic classic
Totem poles in the briefcase shows Get that brand new action
Gonna let me get with the jet effect
Get that brand new action
Gonna let me get with the jet effect Lonesome whistle blows, my bucket froze
Last Saturday night, I couldn't find my fight
Sippin' whiskey in the midnight shade
Vandalized as I didn't have no time Up the river and round the road
A traveling man with a trippin' hand
Soda pop spittin' out slime
Let's get [unverified] and realize Get that brand new action
Gonna let me get with the jet effect
Get that brand new action
Gonna let me get with the jet effect Diskobox, diskobox, diskobox
