

# Night, Nite

## Earlimart

Did you find what you're looking for?

    Dinner for three up on the stove

    It's alright, we'll leave it all alone

And it was nice, we'll miss you, now off you goHer little head is off to sleep

    Poor little girl, she looks just like me

    It's alright, we'll leave it all alone

And it was nice, we'll miss you, now off you goIt's alright, we'll leave it all alone

    And it was nice, we'll miss you, now off you go
