

# Into The Sea

## Port Blue

When I was on the ground  
and you looked upside down  
the noise was all around  
just like the rain falls down  
falls down on me  
falls down on me  
into the sea  
into the sea  
I wonder, if you...  
We didn't make a sound  
No one could show me how  
We didn't make a sound  
I still can't figure out  
What I have found  
What I have found  
When you're around  
When you're around  
I wonder, if you...  
I hope, I hope we never  
Feel so, alone together  
There are still some things  
some things that I can't see  
When we walk down the street  
there is a part of me  
where there's no light  
where there's no light  
Where it is night  
Where it is night  
I wonder, if you...
