Magic Wand

Chris Rice

He rode His wagon into town
A gaudy spectacle
And every gray November brought Him there
Always entertaining, prestidigitating
Pulling rabbits from thin airHe would wave His Magic Wand
He would say the Magic Words
Working up a miracle, puttin on a show
Changing what I thought to be
Unchangeable reality
Wish I had a Magic Wand of my ownNow twenty-three Novembers later
The prestidigitator
Still holds a power in my mind
Cause Id like a quick and easy way
To look inside and make a change
A Magic Wand would do me fineI would wave my Magic Wand
I would say the Magic Words
Working up a miracle, puttin on a show
Changing what I thought to be
Unchangeable reality
If I had a Magic Wand of my ownI would wave it over me and over you
And over all this crazy world
And make it right
Oh and theres so much Id change
If I could take the easy wayI would wave my Magic Wand
I would say the Magic Words
Working up a miracle, puttin on a show
Changing what I thought to be
Unchangeable realityI would wave my Magic Wand
I would say the Magic Words
Working up a miracle, puttin on a show
Changing what I thought to be
Unchangeable reality
If I had a Magic Wand of my ownThe only way to really change
Is simple choices everyday
Obey the Spirit whisper in my soul
With the help of God, a little time
Can change a heart, renew a mindWithout a Magic Wand, to work a miracle
Without a Magic Wand, to work a miracle
Without a Magic Wand, to work a miracle
