

Universal

Slut

wee universal and wee blessed wee grown up well I must confess which makes us better than the rest wee
always happy and amused wee open-minded while we chose wee intellectual confused - wee so confused wee
hungry - though we have to eat wee thirsty - we can find no sleep wee angry - though wee looking sweet we
stay untouchable and strange and though we try to make things change wee far too boneless to arrange we look
so peaceful all the time and though wee dangerously unkind wee used to look like we don mind - like we don
mind wee nameless - though we have a home wee painless - and wee all alone wee aimless - though we have to
roam wee universal wee universal wee universal so universal - and it will always be like this we stay indifferent
and wee blessed we think wee better than the rest wee always thoughtful and depressed wee nameless - though
we have a home wee painless - and wee all alone wee aimless - though we have to roam wee universal wee
universal wee universal just universal
