Call Me

Sarah Connor

Hey heyTell me what I should do
Just seems I'm falling so deep into you
Why did it take me so long to find
Someone so perfect, someone so rightBaby I love you and that's no mistake
I have imagined this moment for life
I have spent many days and so many nights
Holding my pillow as I close my eyesBaby, just call me if you need me baby
You can reach me baby
Baby, just call me if you need me I'm there
Anytime I'll be there through it all, babyI have known so much pain
Now that you've come, you cleared all of my rain
You give me sunshine all through the night
Everything you do it just seems to be right, ohI'm not afraid to go on one more
You've picked me off the floor
Made me the woman that I want to be
And it's 'cause of you 'cause of you that I live, ohBaby, just call me if you need me baby
You can reach me baby
Baby, just call me if you need me I'm there
Anytime I'll be there through it all, babyI have spent so many nights dreaming about
Finding that someone that fits in my life
So full of passion, so full of lifeBaby, just call me if you need me baby
You can reach me baby
Baby, just call me if you need me I'm there
Anytime I'll be there through it all, babyBaby, just call me if you need me baby
You can reach me baby
Baby, just call me if you need me I'm there
Anytime I'll be there through it all, babyOh just call me, yeah yeah
Oh oh call me
