Come 2 Me

Ian Van Dahl

The first time that I saw you You blew my mind
You made me take a look inside I couldn't hide
Never thought I could feel this way About someone
I don't know much about life But I know you're the one
Come to me [x2]
So come to me I like to be the one you need So come to me Then you will see what you mean to me Please come to me.....
My heart has been broken So many times
But you turned darkness into light You made me smile
Never thought I could feel this way About someone
I don't know much about life But I know you're the one
Come to me [x2]
So come to me I like to be the one you need So come to me Then you will see what you mean to me Please come to me.....
