

# Number 1'S

## Jenny Broke the Window

She's just an uptown girl  
Forever alone  
She's been kicking stones at the overpass  
The stuff you never see, stuff you never see  
The one you are will be the one you'll never be  
Keep in mind, your heart  
You never want to be the lonely one  
Instead skipping town, you traverse  
Across the f\*cking ground you grew up on-

(Chorus)

She says she's cool  
She never knew the words to any song  
[But still for sure?]  
She never knew the words to any song!

She says she never knows her favourite song  
Spinning Rolling Stones  
Only number 1's  
The stuff you never see, stuff you never see  
The one you are will be the one you'll never be  
Keep in mind your heart  
You're never gonna be his number 1  
Instead of hanging up, like you should  
You were fucking around and hanging on!

(Chorus repeated)
