Diversions

Betchadupa

There's a girl I used to see
But I doubt that she saw me
Cos she couldn't see or talk
or hear or have a thought
And I saw her in a dream
And we had a cup of tea
She said Liam would help me
I want to see the world
When you're asleep, then we will meet
Together we will learnAnd all the world rained down on her
Well she was born with the diversions in her head
And all the world rained down on her
Well she was born with the diversions in her head
She don't even know I'm thereYou taught me how to feel
The things that are not real
Now my skins more sensitive
and I have much more to give
and show you through my life
the happiness and strife
It seems much lighter now, as far as I can tell
But there's one thing that gets to me
But you can turn me roundAnd all my world rained down on her
She was born with the diversions in her head
If I showed you all I know, don't look at me
I know you have to go
And her brain stopped, I stopped dreaming
And her heart stopped, I stopped breathing
OOOOOOOOh, OOOOOOOOOOOh, I'm moving
