Shake It About

Ufo

Little girl, you're so fine
With that body you gotta be mine
Was a brownie and I was a scout
Baby I never knew how you shook it about
Do me a good deed give me what I need
If you move like that I'll give you what's in store
You won't come back asking me for more
Too hot ain't slept so well
Young boys troubles aren't doing me well

Give me your kisses every night
I wanna shake you and hold you tight, come on and shake
Since I met you I ain't slept so well
Young boys trouble aren't doing me well
Give me your kisses every night
I wanna shake you and hold you tight, come on and shake, ah
Shake
