Three Little Girls

J.J. Cale & Eric Clapton

When this world got you feelin' low
I don't need nowhere else to go
'Cause I get all the love I need
From three little girlsThey're in the garden collectin' snails
On the bed read fairy tales
I get all I'll ever need
From three little girls'Cause all my world's sad and weary
All my days were windin' up
Then you showed me a better way
My three little girlsLord, you put me to the test
And led me through the wilderness
Then you showed me a brighter day
With three little girlsJulie Rose and Ellen May
Sophie Bell, you came to stay
You take my breath away
My three little girls'Cause all my world's sad and weary
All my days were windin' up
You showed me a better way
My three little girls, three little girls
