I Love Your Smile

Charlie Winston

I love your smile
(Oooo I love your smile)

And I love your smile
I love your smile

I'm sitting here watching you all of the time boy
I sit here and stare cuz you are the one on my mind
And i wanna know if you really wanna go
Cuz i know where there's a party tonight
I'll meet you there at eight cuz i really appreciate
You and i are the talk of the town
And i love your smile

I love your smile
And i love your smile
I love your smile

And i wanna know if you really wanna go
Cuz it's time to make a party tonite
(time to make a party, time to make a party)
I'll meet u there at 8
We will make it our first date
U and i will be the talk of the town
And i love ur smile

I love ur smile
And i love ur smile
I love ur smile

And i wanna know if you really wanna go
Cuz i know where there's a party tonite
I'll meet u there at 8 cuz i really appreciate
You and i are the talk of the town
And i love ur smile
I love ur smile
Oooo, Oooo, Oooo
I love ur smile
And i love ur smile
