

# Room Without a View

## The Butterfly Effect

Watching and waiting  
A room without a view  
Searching through surgery  
For something lost inside you Stand me up and push me forward Staring back in front of me  
Where were you hiding?  
I was blind but now I see  
Where you were hiding For so long  
Was I so wrong?  
Or another casualty? Where were you hiding?
