Islands

The Suicide Machines

Advisory - the following lyrics contain explicit language:

You tell me that you've found a better way
And I tell you that it isn't fucking sane
Everything that I wanted has broke down
They all think that Im just a fucking clownEverybodys telling me, I gotta move faster
Everybodys telling me that Im a fucking bastard
All my dreams were just islands in the sky
All my dreams were just islands in the sky
All my dreams were just islands in the sky
All my dreams were just islands in the skyI tell you that the worlds a scary place
And you tell me were caught up in the same race
Everybodys worried that theyll never get their share
I get left behind cause I wasn't ever thereBut everybodys telling me, I gotta move faster
Everybodys telling me that Im a fucking bastard
All my dreams were just islands in the sky
All my dreams were just islands in the sky
All my dreams were just islands in the sky
All my dreams were just islands in the skyThey all think Im mad
Everything I had just broke down
They all think Im mad
Everything I had just broke downBut everybodys telling me, I gotta move faster
Everybodys telling me that Im a fucking bastard
All my dreams were just islands in the sky
All my dreams were just islands in the sky
All my dreams were just islands in the sky
All my dreams were just islands in the sky, fuck on
