

Heartsong

Zwan

come in
make yourself at home
i'm a bit late
hate to make you waitbut heart songs
are still on my mind
there's never the time
to write down these lineshow can you say
that i don't need you
just be sure
no more, no less
let love confess to you
what you must docome on
let's hit the road
i'm up to my tricks
i know they seem coldbut heart songs
are all that i am
i use the same words
to say the same thingshow can you say
that i don't need you
just be sure
no more, no less
let love confess to you
what you must dohow can you say
that i don't need you
just be sure
no more, no less
let love confess to you
no less
