Perfect

Camouflage

Babylon's quiet,
Neonlight's telling,
Short cuts of night,
Asphalt sucked in the sun,
Now we're breathing as one.

Waves in your smile,
Raves when you watch me,
I look aside,
To take a lift off and fly,
To crash back into your eyes.

[Chorus]
You make it real,
The way I feel,
Let's take a ride,
Through the night,
You make it real,
The way I feel,
I'm take a ride,
Through the night,
So perfect.

Clean like a knife,
Whispered and broken,
Words that I said,
Makes me feel so abused,
Left me beeing the accused.

Waves in your smile,
Clears My Horizon,
Your hand in mine,
Equalizing the sad,
Echoing in my head.

[Chorus]
