

I Will Wait for You

Red Sky Mary

When I first met you
Six years ago
Yeah I knew instantly
That I couldn't let you go, oh no And this is our story
I don't care where you've been
Cus I'm here, here to tell you, yeah baby (CHORUS)
(I will wait for you) You know I'm waiting for you baby
(I will wait for you) Oh you're my one and only
(I will wait for you) Yeah-yeah I love you so
(I will wait for you) For you When I looked into your eyes, oh
And I saw your sweet smile
I said I'd be friend to you darling
Until I could, finally let you know And this is our story
I don't care where you've been
Cus I'm here, here to tell you (CHORUS) I was walking in circles
I was lost in the rain
Whenever I saw you with him, oh
I can't remember his name
And I was stuck in this movie
That replayed everyday
And I was hoping that yours truly
Would be that name one day-ay-ay yeah (CHORUS) You know I will
Everyday
No matter what they say
No matter what they do
I love ya, I love ya
And all I want is you! You know I will
You know I will
You know I will And this is our story (Oh girl)
I don't care where you've been (Oh girl)
Cus I'm here, here to tell you, baby yeah (Oh girl) (CHORUS) For you and you
You and you
You and you and only you! (CHORUS) I will wait for you
