

Wrong Kind of Happy

Cosmo Jarvis

(humming)
Had enough
Had enough of spoken love
just spoken love
run away
run away and lead my way
just lead my way
if all goes well
we'll laugh in hell
like we should have done
nothing's fun with me I'm the wrong kind of happy
with open eyes not much to see
I'm the wrong kind of happy
and soon you'll see it's the way to be
(humming) Sail with me
Sail with me
just sails with me
just sails with me
dream again
dream again you're mine to friend
you're mine to friend
if all is gone
we'll sing a song
like we should have done
nothing's fun with me I'm the wrong kind of happy
with open eyes not much to see
I'm the wrong kind of happy
and soon you'll see it's the way to be
(humming)
