Reborn In Steel

Sacred Steel

Steel forged in fire
baptized in blood
the flame soaring higher
given birth the metal godDoom falls silent death draws near
bring on vengeance pain and fear
assault of metal death is real
kneel and praise the gods of steelYou are born to suffer
you are born to bleed
your time is over
the false one to be killedRighteous slaughter no more lies
time for truth the time to die
metalheads born to the light
sons of steel will kill tonight
