

# Witch Hunt

## Burning Image

I will show no mercy, I will take you all  
It is my decision, you will take this fall  
I make lots of money, this is what I do  
I will take your dignity and your freedom too!Where are you?  
HIDE!!This job is my birthright, I will never leave  
I'm a just and fair man, if that's what you believe  
This is not a witch hunt; I'm cleaning up this town  
You'd better leave while you can, or I will take you downWhere are you?  
HIDE!!!I'm the judge and jury; you will do as I say  
And if someone bothers me, I'll make them go away  
I've been here forever, I am all you know  
Listen to what I say, or you're the next to goThis is my dominion, I enforce the law  
Judges in my pocket, they have no say at all  
No one is safe around me, I have no friends around  
Either way I would turn them in, I'm the king of Oil town
