

# Vibrate

## Rufus Wainwright

My phone's on vibrate for you  
Electroclash is karaoke to  
I tried to dance to Britney Spears  
I guess I'm getting on in years  
My phone's on vibrate for you  
God knows what all these new drugs do  
I guess to have no more fears  
But still I always end up in tears  
My phone's on vibrate for you  
But still I never ever feel from you  
Pinocchio's now a boy who wants to turn  
Back into a toy  
So call me, call me in the morning  
Call me in the night, so call me  
Call me anytime you like  
My phone's on vibrate for you, for you
