Fresh Air

Elisa

Fresh Air Some fresh air, to breathe in
Take a chance, have a dream
a safe ground to lay down
and count on what you've found
You tell me what is this
is it an earthquake?
You tell me what is this
is it an earthquake?
Does everything come back to you?
Is everything cyclical?
I only meant to be true

I only meant to be true
Some fresh air, to breathe in
take a chance, have a dream
a safe ground where I can lay down and just count on what I've found
You tell me what is this
is it an earthquake?
You tell me what is this
is it an earthquake?
Does everything come back to you?
Is everything cyclical?
I only meant to be true
I only meant to be true
