

# Fresh Air

## Elisa

Fresh Air Some fresh air, to breathe in  
Take a chance, have a dream  
a safe ground to lay down  
and count on what you've found  
You tell me what is this  
is it an earthquake?  
You tell me what is this  
is it an earthquake?  
Does everything come back to you?  
Is everything cyclical?  
I only meant to be true

I only meant to be true  
Some fresh air, to breathe in  
take a chance, have a dream  
a safe ground where I can lay down and just count on what I've found  
You tell me what is this  
is it an earthquake?  
You tell me what is this  
is it an earthquake?  
Does everything come back to you?  
Is everything cyclical?  
I only meant to be true  
I only meant to be true
