

Baby Loves the Life

[**Dana Fuchs**](#)

shaky heart in hand shrinkin' from yourself
you were taken down last night again
daylight came smilin' down on everybody else
just as you came creapin' inmissed your callin' waiting' for that call
bells are tollin' can't hear nothin' at allbaby loves the life - says she can't get old
she never gonna die - baby's running cold
baby loves the lie - it's all she's ever told
swears she'll never die - baby's runnin' cold
heavy eyes last night's makeup streakin' down
goodbye pounding in your head
the taste of bitter words still linger in your mouth
you barely remember what you saidmissed the warning dreaming out the day
now he's gone and it's easier that waybaby loves the life - says she can't get old
she never gonna die - baby's running cold
baby loves the lie - it's all she's ever told
swears she'll never die - baby's runnin' coldwasted and broken years are mapped out on your face
trapped behind a frozen smile
stuck in a cloud of smoke still in your favorite place
i haven't seen you laugh in quite while
baby loves the life - says she can't get old
she never gonna die - baby's running cold
baby loves the lie - it's all she's ever told
swears she'll never die - baby's runnin' coldbaby loves the life - says she can't get old - never gonna die -
you know she loves the lie - she loves the lie - she loves the life
