Come Over

Cimorelli

It's been a long time since I've seen you
You call me up and it was just what I needed
It's been a long week and I need
I need a good time, I need a good timeOh, whoa, whoa
Drive in your car
Oh, whoa, whoa
Windows down
Oh, whoa, whoa
Where we going?
Oh, whoa, whoa
And that's when it hit meMy garage is the perfect place to dance, dance
Stack the speakers up calling all our friends, friends
With you and me who knows where this night could lead
Yeah, yeahSo come over (over), over
So come over (over), overNow turn it up and turn out the lights
It's me and all of my friends on a Friday night
And we're moving, we're carried away
Who needs a DJ? Who needs a DJ?Oh, whoa, whoa
That's my song
Oh, whoa, whoa
Everybody move
Oh, whoa, whoa
Sing along
Oh, whoa, whoa
And that's when it hit meMy garage is the perfect place to dance, dance
Stack the speakers up calling all our friends, friends
With you and me who knows where this night could lead
Yeah, yeahSo come over (over), over
So come over (over), overOh, speakers on the table
Somebody find the auxiliary cable
We got way, way, way too many people in here
Everybody's tangled up like TwisterTurn on the music, sing along to it
Take a last look and some picture proof, yeah
I just wanna wake up and know
This was the best night of our livesMy garage is the perfect place to dance, dance
Stack the speakers up calling all our friends, friends
With you and me who knows where this night could lead
Yeah, yeahSo come over (over), over
So come over (over), over

So come over (over), over
So come over (over), over
So come over
