Gag

Chimaira

After years of endless torture you try to come back
Likeness of an unwanted child, grow
Simplified case of defamation you left her bleeding
Thrown out the window I tried to compete to be the good oneI'll never understand
I'll never understand
I'll never understandWhat the fuck did we ever do to make you hate
Remaining scars of an unwanted child, lost
Justified, inebriate left me bleeding thrown out the window
I tried to compete to be the good oneI'll never understand
I'll never understand
I'll never understand
