

What Makes a Good Man

The Heavy

Ain't nothin' wrong with this chemistry
Ain't nothin' wrong with this blasphemy
And time tell that there's the pedigree
Experience is another one meant for me To tell me now (tell me now)
'N' show me how (show me how)
To understand (understand)
What makes a good man?
To tell me now (tell me now)
Hey walk the line (walk the line)
Hey understand (understand)
What makes a good man
Good man (Yeah, yeah, yeah) Now I entitle swim for blood and birth
I entitle swim for what it's worth
Cause lines get drawn 'n' lines get kicked 'n' blurred
Indelible is what I need to spread the word 'N' tell me now (tell me now)
'N' show me how (show me how)
To understand (understand)
What makes a good man?
To tell me now (tell me now)
Hey walk the line (walk the line)
Hey understand (understand)
What makes a good man
Good man (Yeah, yeah, yeah) Tell me now (tell me now)
'n' show me how (show me how)
To understand (understand)
What makes a good man?
To tell me now (tell me now)
Hey walk the line (walk the line)
Hey understand (understand)
What makes a good man
Good man
From me What makes a good man
Good man What makes a good man
Good man
