

Come On and See Me

Marvin Gaye & Tammi Terrell

If you need a lover
Truer than any other
Come on and see me
If you need a heart
That will never tear apart
Come on and see me
'Cause I've got a true love, just for you, love
And it can be yours eternally
If you want it, you better come and get it
I say if you want it, better come and get it
If you need a lover
That'll stick right by you, brother
Come on and see me
I'll stand by your side
I'll dry your weepin' eyes
Come on and see me
'Cause I've got joy, love, for some boy, love
And it can be yours eternally
If you want it, you better come and get it
I say if you want it, better come and get it
Baby
(Come on and see me now)
Sugar
(Come on and see me now)
Honey
(Come on and see me now)
'Cause I've got joy, love, for some boy, love
And it can be yours eternally
If you want it, better come and get it
Baby, baby
(Come on and see me now)
If you want it, better come and get it
Sugar, sugar
(Come on and see me now)
If you want it, better come and get it
Honey, honey
(Come on and see me now)
If you want it, better come and get it
Baby, baby
(Come on and see me now)
If you want it, better come and get it
Sugar, sugar
(Come on and see me now)
If you want it, better come and get it
Honey, honey
(Come on and see me now)
