

Morning Light

Graham Colton Band

Sometimes I think I pass you walkin' on the street and I believe it
Sometimes I think I see you lookin' back at me and now I see it
Everythin' you feel sayin' what is real
And don't go away say you'll stay until the mornin' light
And don't fade away into gray standin' in the light I lie awake at night and never sleep to watch you breathin'
I tried to smile and laugh as you turned away but I was bleedin'
Everythin' I feel I make believe is real
And don't go away say you'll stay until the mornin' light
And don't fade away into gray standin' in the light Sometimes I think I pass you walkin' on the street and I
believe it
Sometimes I think I see you lookin' back at me and now I see it
Don't go away say you'll stay until the mornin' light
And don't fade away into gray standin' in the light
And don't go away say you'll stay until the mornin' light
And don't fade away into gray standin' in the light
