

Come to Me

[Emily Wells](#)

Come to me when you know that you're ready
Come to me when you're home
And my mama said there'd be blue jays in the summer
Yeah my mama said there'd be apples in the fall
But my mama don't know a thing about loving
'Cept how to catch a man when he falls
So come to me when you're good and you're ready
Come to me when you're home
Yes, come come to me... Come come to me
Come come to me when you're good and ready
And my mama said there'd be oranges in the winter
Yeah my mama said there'd be blossoms in the spring
And my mama sure knows a whole lot about loving
So come to me and I'll give you everything
We don't know what's best for us
We don't know what's next for us but I wanna find out
I don't know what you look like old and gray
I hope that you will stay cause I wanna find out
And I don't care I don't care anymore
I just wanna find out
We don't care we don't care anymore
We just wanna find out
