

Don't Let This Moment End

Gloria Estefan

Kiss me
Hold me
Touch me
Don't let this moment end Please, don't let this moment end
At least 'til once again
Our hearts can be together Please, I've never let you go
But still I need to know
This night will last forever Oh please
You know you own my heart
Just tell me where to start
Don't make me wait much longer Oh please
I know tonight's the night
It never felt so right
Just hold me in your arms and Kiss me
Hold me
Touch me
Don't let this moment end Please, I'm begging you to stay
Just throw the world away
Pretend there's no tomorrow And I will never leave your side
Never let this feeling die
Just let our love grow stronger Oh please
You know you own my heart
Just tell me where to start
Don't make me wait much longer Oh please
I know tonight's the night
It never felt so right
Just hold me in your arms and Kiss me
Hold me
Touch me
Don't let this moment end Can we make this moment last forever?
Tell me if you feel the way I do Ohh
Don't let this moment end
Never end Please
You know you own my heart
Just tell me where to start
Don't make me wait much longer Oh please
I know tonight's the night
It never felt so right
Just hold me in your arms and Kiss me

Hold me
Touch me
Don't let this moment end Oh please
I know tonight's the night
It never felt so right
Just hold me in your arms and kiss me
