Till It Snows In Mexico

Reba McEntire

Growing up in Oklahoma, people call us blind
'Cause we believe in God and love, and old fashioned things
We still draw the line between wrong and right
And when a woman takes a husband it's for lifeWe met on a road from Tulsa, travelers in the night
Well, I knew we belong together, it just felt so right
There's something about this gal, you ought to know
She's gonna love you till it snows in MexicoI'm gonna love you till it snows in Mexico
Or till the Rio Grandee freezes over
'Cause darling when He made our love, He threw away the mold
And I'm gonna love you till it snows in MexicoIf you should ever leave me, heaven forbid
But you don't have to worry none about me [Incomprehensible]
You know exactly where I'll go
I'll be waiting for the snow in MexicoI'm gonna love you till it snows in Mexico
Or till the Rio Grandee freezes over
'Cause darling when He made our love, He threw away the mold
And I'm gonna love you till it snows in Mexico'Cause darling when He made our love, He threw away the mold
I'm gonna love you till it snows in Mexico
