You Wanted The Best

Kiss

Alright
Make up or break up 'cause we've seen better days
Yeah, they'll have to drag you kickin'
And screamin' off the stage
Listen don't do me favors, don't show your face
Don't tell me not to play 'cause it's not your place
The fans wanted us to play
We hear and we obey
You wanted the best
And you got the best
Don't give me glances, don't give me lies
Don't give me sweet talk, the beat just testifies
Hey, you live in fairy tales, you're just a fallen star
Right well, who died and made you king
Just who do you think you are?
Everything's gotten way out of hand
But your wish is our command
You wanted the best
And you got the best
Everything's gotten way out of hand
But your wish is our command
You wanted the best
And you got the best
You wanted the best
And you got the best
