Beautiful to Me

Tanner Helms

She looks at herself in the mirror
Grudgingly hatin on what she sees
Everyday she looks in hopes that somethin might change
That her body might rearrange.The truth hurts her but shes grown to hide it
Her ritual helps her keep it quiet
Never had a father in her life,
Never had a lover to treat her right
Alone in her bed she cries at night
And cries until the morning light andGirl ease your mind leave your teardrops behind
You are beautiful to me
You can just be you, you aint gotta do what those other girls do
You are beautiful to meWatches movies by herself on a couch alone with no one else
Wonderin why?
Shes tried everything in the book and blames it on the way she looks
And thinks the problems of her life could be resolved under a knife andGirl ease your mind leave your teardrops behind
You are beautiful to me
You can just be you, you aint gotta do what those other girls do
You are beautiful to meI know you gotta do what you gotta do
Lifes not fair, just take care
I know you gotta do what you gotta do
Lifes not fair but Ill be there
I love you.Outro jam:
Take your time, ease your mind
Dry your eyes, your beautiful to me
x3 and end
