LITTLE SECRETS

Connected: Passion Pit

When I came down the sun poured into me
I shook 'em up, the walls came crumbling
My fists kept trembling with these salty wounds
My stolen gold inside the emperors tomb
Now baby wait, looks like [Incomprehensible] face
I built this cardboard neighborhoods disgrace
Who let it said that you're my favorite sphere
Within the confines of such chemistry
It's the way I see
Everything I need
It's the way to be
Let this be our little secret
No one needs to know we're feeling
Higher and higher and higher
Higher and higher and higher
But I feel alive and I feel it in me
Up and up I keep on climbing
Higher and higher and higher
Higher and higher and higher
My face blew up at such a casual sight
This miracle is of ecstatic fright
They'll rush above me to oblivion
Outlining white sidewalks with halogen
Oh, have you ever felt so goddamn strong
How come it takes some people so damn long
He tried to squeeze the lemon juice to rain
The citrus drawing out the seasons stains
Watch the basin drain
As your life lines wane
And you can't explain
As your friends complain
You've caused all this pain

And you proudly shame
Your whole families name
Let this be our little secret
No one needs to know we're feeling
Higher and higher and higher
Higher and higher and higher

But I feel alive and I feel it in me
Up and up I keep on climbing
Higher and higher and higher
Higher and higher and higher
Mother, I can tell what you've been thinking
Staring at the stars on your ceiling
Thinking once there was a power that you were wielding
And now I've hit the mark, staring at the dark
And I cannot help but ignore the people staring at my scars
Let this be our little secret
No one needs to know we're feeling
Higher and higher and higher
Higher and higher and higher
But I feel alive and I feel it in me
Up and up I keep on climbing
Higher and higher and higher
Higher and higher and higher
Let this be our little secret
No one needs to know we're feeling
Higher and higher and higher
Higher and higher and higher
But I feel alive and I feel it in me
Up and up I keep on climbing
Higher and higher and higher
Higher and higher and higher
