Waiting For You

Ben Harper

I've been waiting for you
Never found anything else to do
But waiting for you

I've been calling your name
Never found anything else the same
Nothing's the same

chorus:
You can kill a lot of time
If you really put your mind to it
Or leave it all behind
And never go through it

I keep hearing your name
Nothing else sounds the same
As hearing your name

chorus

I've been hoping for you
What else can i do
But keep hoping for you

chorus

What else can i do

Keep waiting for you
