

biscit

End of Fashion

I dont want you to show me the way
Thats your life and this is my pain
No matter what they tell you its never the truth
Always trying to take away the blanket of youthSo be there as only you can
No mystery, it's part of my plan
No matter what they tell you it's never the truthOnly this time, only this time, only this time
Is this so, is this soWell there's danger around in the air
Its poisoning but we dont care
No matter what they tell you its never the truth
Only this time, only this time, only this time
Is this so, is this soThis is my way, this is my way babyOh oh city girl
This is so, this is soThis is my way, this is my way baby
