So Here We Are

Bloc Party.

I caught a glimpse
But its been forgotten
So here we are againI made a vow
To carry you home, homeI really tried
To do what you wanted
It all went wrong againI made a vow
To carry you home
If you fall sick
If you pass out, outI figured it out, I figured it out
I figured it out, I figured it out
I can see again, I can see again
I can see again, I can see again
I can see again
