

# So Here We Are

## Bloc Party.

I caught a glimpse  
But its been forgotten  
So here we are againI made a vow  
To carry you home, homeI really tried  
To do what you wanted  
It all went wrong againI made a vow  
To carry you home  
If you fall sick  
If you pass out, outI figured it out, I figured it out  
I figured it out, I figured it out  
I can see again, I can see again  
I can see again, I can see again  
I can see again
