## Hooverphonic

Morning sunshine  
You are always smiling when I open my....  
My eyes do shine  
Radiate like a nuclear dense cloud You're like a real strong cup of tea  
Giving me more than energy  
Caffeine is just a small advance  
For all the triggers that make me Na nana nana nananana boy you make me dance  
Na nana nana nananana you put me in a trance Good night sleep tight  
feels as if I could swim across the ocean  
My Film star  
Playing the lead in my nightly stop motion Ginseng is weak compared to you  
I'm wandering round without a clue  
By enforcing my sweet fantasy  
My pheromones are making me Na nana nana nananana boy you make me dance  
Na nana nana nananana you put me in a trance Long time ago I fell for you  
But we had so much more to do  
It took a while to synchronize  
But now we're locked it makes me Na nana nana nananana boy you make me dance  
Na nana nana nananana you put me in a trance Like the amalfi  
Coast you are wildly curling beautiful  
Hypno-tising  
Water makes me fond of the un useful Long time ago I fell for you  
But we had so much more to do  
It took a while to synchronize  
But now we're locked it makes me Na nana nana nananana boy you make me dance  
Na nana nana nananana you put me in a trance Na nana nana nananana boy you make me dance  
Na nana nana nananana you put me in a trance Morning sunshine  
You are always smiling when I open my....
