

Family Friend

Star Slinger

They've all got their opinions but then what do they know
If you can't go back, where the hell do you go?
Does everybody really feel as high as a kite?
Well I don't really know if they do but they might
You wanna get young but you're just getting older
And you had a fun summer but it's suddenly colder
If you want a bit of love put your head on my shoulder
It's cool

They've all got their opinions but then what do they know
If you can't go back, where the hell do you go?
Does everybody really feel as high as a kite?
Well I don't really know if they do but they might
You wanna get young but you're just getting older
And you had a fun summer but it's suddenly colder
If you want a bit of love put your head on my shoulder
It's cool

You wanna get young but you're just getting older
And you had a fun summer but it's suddenly colder
If you want a bit of love put your head on my shoulder
It's cool

Half baked girl

Hey, I'm hardly surprised

Snake eyes disguise everybody's lies

Faded nail marks on pale thighs and an awkward secret that someone denies

And now you're trying to get yourself back in

Come on in

You wanna get young but you're just getting older
And you had a fun summer but it's suddenly colder
If you want a bit of love put your head on my shoulder
It's cool

You wanna get young but you're just getting older
And you had a fun summer but it's suddenly colder
If you want a bit of love put your head on my shoulder
It's cool
