

# Castles In The Air

## B\*Witched

Here my head up in the clouds  
I feel I'm spinnin' around  
Dreams will come and go but this is here to stay  
So forever this way Hold me now, hold me now  
And say the things you say  
Hold me now, hold me now  
I pray So here we are at the start of this road  
Together building castles in the air  
Words we don't need, without you I don't breathe  
Forever building castles in the air So softly like a sigh  
Sea where the white horses ride  
It all seems so real, a feeling deep inside  
So our time will go on Hold me now, hold me now  
And say the things you say  
Hold me now, hold me now  
I pray So here we are at the start of this road  
Together building castles in the air  
Words we don't need, without you I don't breathe  
Forever building castles in the air So here we are at the start of this road  
Together building castles in the air  
Words we don't need, without you I don't breathe  
Forever building castles in the air
