God Must Love U

Babyface

God must love you, I said to myself
'Cause you are more beautiful than anybody else
God must adore you, it's easy to tell
Must be wonderful to wake up to yourself
And the moment I saw you, had a vibe that's fit to kill
It was then you knew that I knew love was real
On the day I met you, you were so so true
On the day I fell in love with you, my heart stood still
And I never thought this happening to me
It's like something just came over me
I never thought that I could feel
Yes, God must love you, He's proud of himself
When he made you girl, He broke the mold for real
There's just something about you that you can even help
It's the way you flow, you don't even know
That you got that whip of view
But the moment I first saw you, had your vibe all set to kill
It was then you knew that I knew love was real
On the day I met you, you were so, so true
On the day I fell in love with you, my heart stood still
And I never thought this happening to me
It's like something just came over me, yeah
On the day I met you, you were so, so true
On the day I fell in love with you, my heart stood still
And I never thought this happening to me
It's like something just came over me
I never thought that I could feel, baby, yeah
Never thought, love at first sight could be real
Suddenly I see your face and I get you, baby
And everything I never thought that I could feel is for real
Love is real on the day
Oh, baby, on the day I met you, you were so, so true
On the day I fell in love with you, my heart stood still
And I never thought this happening to me
It's like something just came over me, yeah
On the day I met you, you were so, so true
On the day I fell in love with you, my heart stood still
And I never thought this happening to me
It's like something just came over me

I never thought that I could feel
No, no, I never thought that I could feel
